

Metabolomics, Delivered.

Accelerate your research with our turnkey metabolomics services.

Move Analytical has redesigned the laboratory experience for metabolomics in order to reimagine how services can be offered. Put your next metabolomics project into the hands of a trusted team – no guesswork, just great data at a price you can afford and a timeline you can count on.

Responsive

Analytics automation results in consistent results and fast turnaround. Results in days to weeks, not months.

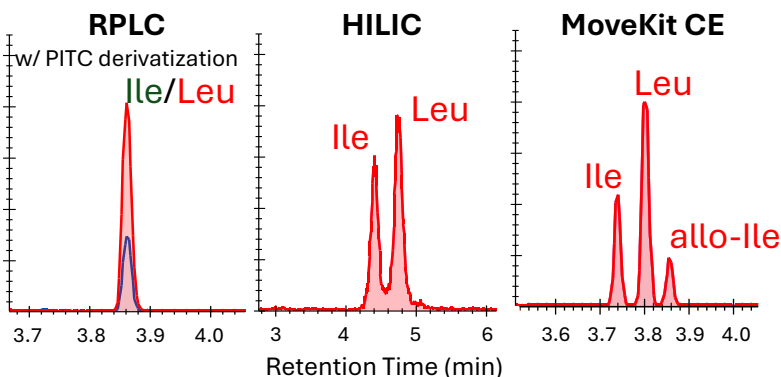

Cost-Effective

We pass along the savings from automated data collection and analysis to you.

Integrated and Quantitative

All metabolites are annotated with molecular speciation and concentration values, providing you actionable results for incorporation into your biological study.

SEE WHAT YOU'VE BEEN MISSING.

Other services use derivatization or separations with less power. For amino compounds, Move Analytical uses the power of CE-MS for unparalleled chemical separation, to uncover hidden analytes.

MoveKit™ and MoveApp™ are trademarks of Move Analytical LLC. For research use only. All rights reserved. ZipChip® is a registered trademark of Repligen Corporation. Orbitrap® is a registered trademark of ThermoFisher Scientific. Move Analytical is not affiliated with or endorsed by Repligen Corporation or ThermoFisher Scientific.

SERVICES INCLUDE

- **MoveKit™ CE** panel for a full set of polar metabolites (>300 targets) and optional discovery-search services
- **MoveKit™ Amino+** panel for a focused look at over 40 amino acids and vitamins
- Analysis of plasma, serum, urine, CSF, cell culture media, tissue and cell lysates
- Custom services available upon request

ABOUT US

- Decades of experience in research, pharma, service, and contract laboratory environments
- BSL2 laboratory in Carrboro, NC with LC, ZipChip® CE, and Orbitrap® HRMS capability

CRO or Core Lab?

Move Analytical can white-label our analyses for you to provide to your customers, or set you up with our MoveKit™ and MoveApp™ platforms to reduce cost per sample and deliver seamless results quickly!

GETTING STARTED

1. Submit a service request to info@moveanalytical.com
2. We'll help you design the right study, at the right price
3. Relax but be ready – your data is coming soon!

Let's make short work
of your backlog.
